

## **Purchasing Terms & Conditions**

By accepting the RG Group Purchase Order, compliance to the requirements stipulated within the terms and conditions mandate that the advance notification of any product, process or service change that would impact the RG Group or its customers be made as it relates to the support of products and services in the markets served and as regulated by the FDA, ITA and ISO 9001.

The following are the types of changes that we would need to be notified of:

- Change in tooling/equipment
- Change in manufacturing process
- Facility/manufacturing change that impacts the manufacturing of the product
- Parts that are obsolete (you will no longer manufacture them)
